

PHOTONICS CLUSTERS MEETING

JUNE 29TH 2.00PM / ROOM B12 - HALL B1 / LASER WORLD OF PHOTONICS. MUNICH

We invite all the **Photonics Clusters Managers** and teams to come to exchange the best practices of cluster collaboration and innovation development in their countries.

Save the date in your calendar!

Addressed to

- Photonics Cluster Managers
- SMEs

Goals of the meeting

- Strengthening the **collaboration** and networking among photonics clusters and experts
- Exchanging **Best Practices** in helping SMEs to addressing non-photonics value chains
- Getting insight on the **tools developed** within the RESPICE-SME project
- Generating and discussing new **business models** to get solutions to market
- Enhancing **market entry** for innovative photonics technologies, processes and services

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

RespiceSME reinforces the innovative capacity of Europe's photonics SMEs, clusters and national platforms by stimulating increased collaborations in and beyond photonics. RespiceSME proposes a 3-dimensional approach to enhance the innovation capacity of photonics SMEs, analyse value chains to support a more effective penetration by European photonics SMEs in global non-photonics sectors and harness the full innovative capacity of the European photonics infrastructure.
