https://dinkurs.se/appliance/?event_id=45083

Listen to and discuss with

- Industry representatives
- Innovation experts from academia
- Representatives from EU educational programmes

About

- What actions and measures are necessary to align education with innovation
- How can universities and industry better collaborate to trigger innovation

After the presentations

- Networking with refreshments and snacks
- Matchmaking opportunity for job/internship seekers and companies!

This workshop is organised in the framework of the EU Horizon 2020 project "RespicSME" (www.respic-sme.eu) and the Photonics Public Private Partnership (Photonics21 - www.photonics21.org).

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

The objective of the RespicSME project is to reinforce the innovative capacity of Europe's photonics Small and Medium Enterprises (SMEs), clusters and national platforms by stimulating targeted collaborations in and beyond photonics.
