Ing. Jiří Čech, Ph.D.

Programmer, R&D

cech@applic.cz

[We offer

1. Custom machine vision solutions (UV, VIS, NIR, LWIR, Hyperspectral)
2. Electrical design and HW manufacturing
3. SW for system control and evaluation (Neural networks and FPGA platforms)
4. Fast prototyping

*Let's Make Optics for the Future.
Together.*

[Introduction

Over 30 years experience in industrial automation, measurements and regulation, and machine vision.

Recently finished development of IR cameras and Hyperspectral system.

[We are looking for

1. Business partners
2. Cooperation on R&D with the newest technologies

Projects

Infrared camera **IRCA3**

Hyperspectral LWIR camera **RODES**
