We offer

- Precise optical elements - Aspheres, Spheres, Axicons, Acylinders, Free-Forms for various applications (UV-VIS-IR)
- Unique manufacturing technologies (MRF, IBF, Ångström-Polishing, SPDT)
- Optical Coating, Metrology, Optical Assembly, Characterization and Refinement
- Design and manufacturing of optical systems

We are looking for

- Sales Opportunities
- Testing of optical elements according to MIL
- Coating (sputtering) services
- Collaboration in R&D
- Manufacturing of precise mechanical parts
