Photonic Innovations in MedTech Symposium

Technopark Zürich • 2-3 September 2024

ENGAGE WITH THE FUTURE OF MEDICAL TECHNOLOGY AT THE PHOTONIC INNOVATIONS SYMPOSIUM

Join MedPhab at Technopark Zürich for a transformative two-day event that unites industry stakeholders to explore cutting-edge photonic innovations. This symposium is dedicated to tackling the most critical challenges in point-of-care services, surgical assistance, and personalized diagnostic solutions.

Network with leading photonics experts, industry pioneers, and potential collaborators. Discover the latest advancements in photonic technologies, understand regulatory frameworks, learn about control point development, and navigate the European development scene.
